

牛血清白蛋白 BSA(全组分)使用说明书

Catalog Number	U11006
Raw material country of origin	New Zealand
Country of manufacture	Australia
Raw material	Bovine blood plasma
Animal(s) obtained from approved government facility?	Yes
Is raw material traceable back to the processing facility?	Yes
Did animal(s) pass ante- and post-mortem inspection?	Yes
Process performed to inactivate pathogenic viral agents	Temperature >65°C and pH <5.0
Is there material co-mingling with other animal-derived materials?	No

The supplier holds a Certificate of Suitability from the EDQM for this material.

Product Specifications

Test	Specification	Result
Color	White to off-white	White to off-white
Purity	≥ 98.0%	100%
IgG	≤ 0.005%	<0.005%
Fatty Acid	≤ 0.05%	0.03%
pH USP <791>	6.5 - 7.2	7.1
Total Protein	≥ 96.0%	100.6%
Moisture	≤ 5.0%	1.6%
Ash	≤ 3.0%	0.8%
Solubility (6% solution in H2O)	Soluble	Soluble
Microbial Content	≤ 100 cfu/g	50 cfu/g
Mycoplasma (Ph. Eur. 2.6.7)	Negative	Negative
Bovine Viral Diarrhoea Virus (BVDV)	Negative	Negative
Cytopathogenic Agents (IBR)	Negative	Negative
Hemadsorbing Agents (PI3)	Negative	Negative
Endotoxin USP <85>	≤ 10.0 EU/mg	7.1 EU/mg
